Objective

Motivated Computer Applications graduate with strong analytical and problem-solving skills. Experienced in developing application-based solutions and committed to continuous learning, clean code practices, and professional growth.

Technical Skills

Languages: Java, Python, Kotlin, C, PHP, C#

Mobile Development: Android SDK(Kotlin & Java), Flutter(Dart)

Framework: Flutter, Laravel

Web Technologies: HTML, CSS, JavaScript

Databases: MySQL, Oracle, SQLite, PostgreSQL

Tools & IDEs: VS Code, Android Studio, Visual Studio 2022, Git/GitHub

Core Concepts: OOPS, Data Structures & Algorithms (DSA), DBMS, Software Development Lifecycle

Education

Master of Computer Applications (MCA) | LJ University | 2027

Bachelor of Computer Application (BCA) | VNSGU | 2025 | 9.12

Higher Secondary (CBSE) | Result: 92.66%

Work & Experience

1. Clinic Management System | C#, PostgreSQL, Visual Studio 2022

A management system developed for Clinic to handle patient records, medical records, prescriptions, billing and profit.

Key Contributions & Impact:

- Patient record management
- Medicines record management
- Prescription and medical history storage
- Bill generation and payment record maintenance
- Profit history storage

Project

1. Online Student Attendance Application (Face Recognition Based)

Tech Stack: Flutter, Python, MySQL

Software Used: Android Studio

Built a digital attendance system enabling secure and automated attendance marking.

Key Contributions & Impact:

- multi-role authentication (Admin, Faculty, Student)
- Attendance marking with subject & division selection
- Attendance marking through face recognition
- Real-time attendance percentage calculation
- Attendance history reports for students

2. Smart Event Reminder Application (Android)

Tech Stack: Kotlin, SQLite, Android Studio

Developed a feature-rich Android application to manage and notify users about scheduled events.

Key Contributions & Impact:

- Event scheduling with date & time picker
- Alarm notifications for events
- Music selection feature from device storage or default music options
- SQLite integration for storing event data
- RecyclerView for displaying event lists
- Update and delete functionality

Strengths

- Strong Problem-Solving Ability
- Fast Learner & Adaptable
- Clean Code & Logical Thinking
- Team Collaboration & Communication

Languages Known

Gujarati (Native)

Hindi (Fluent)

English (Professional Working Proficiency)
